Professional Summary:

As a recent graduate with a strong passion for web development, I am seeking an entry-level position as a front-end developer.

I am excited to apply my knowledge of HTML, CSS, JavaScript and React to create engaging and user-friendly websites. My goal is to contribute to a creative team, enhance my front-end development skills, and deliver outstanding user experiences.

Tools, Key Skills, and Technologies:

Web Technologies	HTML5, CSS3, JavaScript, React JS, ES6, Redux.
UI Libraries & Web Frameworks	Bootstrap, Django
Development Tools	VS Code, Atom
Languages, and Stack's	Python.
Databases	Mongo DB, MySQL
Merge & Versioning	Git, GitHub

Professional Experience:

Working as Frontend Web Developer at **Greet Labs Pvt Ltd.** Bangalore from August 2023 to present.

Educational Credentials:

Bachelor of Computer Science and Engineering Degree from Jansons Institute of Technology in 2023.

Activities:

Expense tracker: By using an expense tracker, user can record and understand all their spendings and review it in a timely manner. Link

Game: I have created a simple rock-paper-scissor game using HTML, CSS, and JavaScript. Link

Portfolio: I created a portfolio for myself using Bootstrap. Link

Project Experience:
Project: News App(Online top 100 news)
Technology: React Js, Live news API

Description: The project focuses on aggregating and displaying the most popular and trending news stories related to India. The user interface is designed to provide a seamless and enjoyable experience, allowing users to easily navigate and stay informed about the latest happenings. The goal is to offer a comprehensive overview of the top 100 trending news articles, ensuring that users can access relevant and up-to-date information in a convenient and efficient way.

Responsibilities:
- Developing interactive and responsive UI using React.
- Implementing the search activity, which gives the result based on search.

Project: ShopHere (E-commerce)
Technology: React Js, Python Django$^{(API)}$

Description: This project helps in promoting the sales activities by boosting up the sales with product promotions by making the product attractive in catalogs to inspire customers.

Responsibilities:
- Developing interactive and responsive UI using React.
- Involved in developing the user module API using Django Rest Framework.

DECLARATION

I hereby declare the information furnished above is true to the best of my knowledge.
